

# Rekha Singh

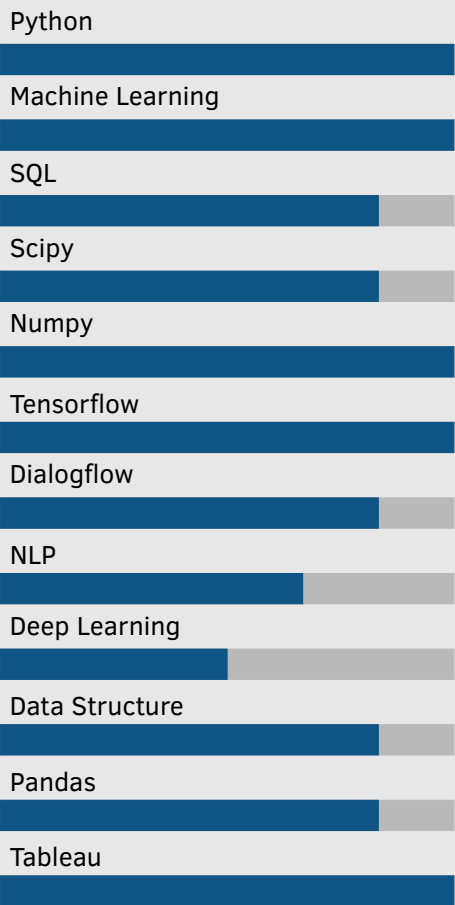

## Data Science Enthusiast

- 12th Feb 1992
- New Delhi
- +917904422148
- <https://www.linkedin.com/in/rekha-singh-07a936183/>
- rekha.singh199202@gmail.com

## About me

Adept in Analytics Statistics with experience in applying Python, MySQL,Tableau Machine Learning techniques for true Business value and sorting complex technical data..

## Skills

## Education

- 2015-2017 M.Tech | 6.74 CGPA  
Indian Institute of Information Technology, Tiruchirappalli Tamil Nadu, Mentor by NIT Trichy
- 2010-2014 B.Tech | 72.76 Percentage  
United College Of Engineering And Research, Greater Noida
- 2008-2009 Intermediate | 87.6 Percentage  
Majoring in P.C.M.
- 2006-2007 High School | 91.6 Percentage  
Specializing in Science

## Certification

- Python-Data Structure-Machine Learning | Issuing Organization:Perfect Plan B Private Limited
- Intermediate Machine Learning |Issuing Organization: Kaggle
- Data Science A-Z | Issuing Organization: Udemy
- Python for Data Science|Issuing Organization:IBM
- Python Bootcamp: A to Z |Issuing Organization: Udemy

## Working Experience

1. Data Science- Trainee | May- 2020- October-2020 | Board Infinity  
Prepared Projects in Python and Machine Learning | Visualize Data sets using Excel Tableau and Power BI  
Participated in Hackathon Conducted by Kaggle, HackerEarth and Analytics Vidhya
2. Quality Assurance Engineer | July 2019-May 2020 | HCE Service Ltd Indore  
Prepared Client and Server Build |Performed Manual Testing for Payment application  
Product name - HCE Wallet |IPOS-Tap and Pay with SCRP Device | Unwind Resort Marchant App | Prepared Bug Report and reported to development Team using Bugzilla
3. Assistant Professor| July- 2018- December-2018 | A.I.E.T College Jaipur Rajasthan  
Job Responsibilities: data preprocessing, data transformation, exploratory data analysis and model building. Programming and other tools used: Python, SQL server,Excel  
Projects:  
Bangalore House Price Analysis  
Breast cancer prediction using Logistic Regression  
(ii)Harry Potter Invisibility cloak based on OpenCV  
I have to selected hsv code of a perticular color (in my case red) which will make that colored object invisible |used morphological transformation to reduce the noise

## Projects

- 2020 Data Science  
Google Play Store - App Rating |Statistical and Predictive modelling developed for the best app rating for users potential visibility.
- 2020 Data Science  
Predict automobile price |build a model to understand the factors that drive Price of the Car!
- 2020 Data Science  
Bank Marketing Prediction| Goal is to make a predictive model to pre-dict if the customer will respond positively to the campaign or not. The target variable is "response".
- 2020 Minor Project in Python  
Rolling the Dice |Task: playing a single game of Roll The Dice and play more than one game of Roll The Dice
